

QUICK GUIDE OPAC

HOME

The screenshot shows the top navigation area of the OPAC. On the left is the logo for 'STAATLICHE KUNSTSAMMLUNGEN DRESDEN'. In the center is a search bar with a green border. To the right of the search bar are icons for a menu, search, and settings. Further right are links for 'Items', 'My Account', and 'Other Languages' (EN | DE).

Below the navigation are three columns of classification options:

- main classification**: aesthetics, Essays and museology, Africa, America, Antarctic, anthropology, applied arts, architecture, art, sports, games, architecture, art history, Asia, **More Options ...**
- Type of Resource**: Article, Audio Disk, Autobiography, Bibliography, Biography, Book, Book Component Part, Cartographic Image, CD, CD-ROM, **More Options ...**
- Branches**: Abteilung Museumspädagogik, AdA, ALB, AR, Dresden-Staatliche Ethnographische Sammlungen, FwK, Galerie Neue Meister, Gemäldegalerie Alte Meister, Gerhard-Richter-Archiv, Grünes Gewölbe, **More Options ...**

Below these columns is a detailed information section for 'Staatsbetrieb Staatliche Kunstsammlungen Dresden'. It includes contact information (phone, email), a list of institutions (Art Library, Ethnographical Museum Dresden, Ethnographical Museum Leipzig, All institutions), and search options (Search History, Advanced Search). It also mentions sponsorship by DFG (Deutsche Forschungsgemeinschaft) and is powered by vufind and ifnc.

On the start page there is a search field in the upper area for easy searching. In the sections "Rough classification", "Formats" and "Branches" you can get a first overview, but you will get large numbers of hits here.

- via the filter selection search categories can be preselected.
- The cogwheel takes you to the advanced search, where search terms can be combined via the stored categories.

Erweiterte Suche

The advanced search interface shows three search terms with their respective filters:

- Suchbegriffe: Pechstein | Suchtyp: Person / Institutior | Übereinstimmung: Mit ALLEN Wörtern
- Suchbegriffe: Südsee | Suchtyp: Schlagwort
- Suchbegriffe: | Suchtyp: Alle Felder

Below the search terms is a link: [+ Suchfeld hinzufügen](#)

In the lower section you will find all information about the participating institutions, terms of use and search options.

LIST OF RESULTS

After sending the search request using the Enter key, via the field **Finden** or the "magnifier"  the list of results is displayed.

In addition to the holdings of the individual libraries of the SKD, the hit list also includes content from external databases (JSTOR) and freely available sources (open access).

You can include or exclude certain hits using the options on the right-hand side of the screen.

The availability of a medium is highlighted in green in the list.

Multi-volume works, series, journals

Here you can access all existing volumes and articles or offprints of the relevant complete title via "Display context". For research on journals, we recommend searching in the [Zeitschriftendatenbank](#) (see extra instructions). In the OPAC, it is possible that not all individual volumes are catalogued that are actually available.

Records without copies

If no copies are displayed, these are usually titles that were automatically imported. However, the title is usually available in one of the branches, but no copy data has yet been manually re-catalogued. Please contact the library staff, they will be able to tell you where the title is located.

In the case of multi-volume works, series or journals, the data record of the superordinate overall title is displayed here. Here you can access the individual volumes via "Show context". (see above)

Borrowed copies, reservations

It is only possible to reserve borrowed titles if all copies of a title have been borrowed. As soon as a title is available at another location, it can be borrowed, even across locations. To do so, please contact the library staff.

You can **return to the hit list** either via the "back" button in the browser or via the "search" field above the selected record.
